PRELIMINARY AMENDMENT

Dear Sir:

Prior to examination, please amend the above-referenced application as follows:

In the specification:

At page 76, line 1, please insert substitute pages 76-782 containing the Sequence Listing as submitted herewith for the originally filed pages 76-782.

REMARKS

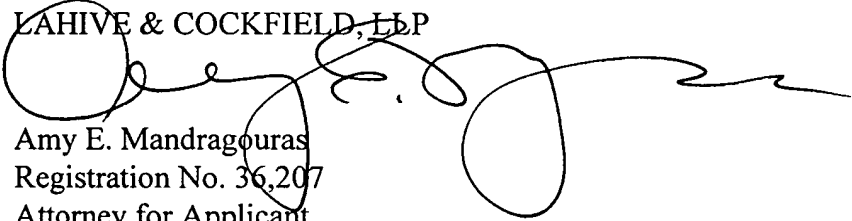

The substitute pages 76-782 containing the Sequence Listing merely correct the defects set out in the "Notice to Comply with Requirements for Patent Applications containing

Nucleotide Sequence and/or Amino Acid Sequence Disclosures." Applicant has also submitted on even date herewith a computer-readable form (diskette) of the Sequence Listing which is identical in substance to the Sequence Listing appearing on substitute pages 76-782.

No new matter has been added to the application. Accordingly, as the above amendments do not affect the issue of patentability, it is respectfully requested that they be entered.

Respectfully submitted,

LAHIVE & COCKFIELD, LLP
